Lateef Daumont, AKA Lateef the Truth Speaker, rose to prominence in the early 90's as one half of the hip-hop group Latyrx and part of the Solesides collective that also counted DJ Shadow and Blackalicious amongst its members. Lateef's first single, "The Wreckoning" was produced by DJ Shadow and released in 1995, followed by an EP, "The Quickening," and finally a full length album with Lyrics Born as "Latyrx."

Since then, Lateef has contributed his talents to a variety of projects, working with Z Trip, Galactic, General Elektriks and the Mighty Underdogs. Recently, Lateef collaborated with legendary producer Fatboy Slim for the album Palookaville, contributing vocals to "Journey" and "Wonderful Night." The latter single has been in high demand with prominent placements in television, video games and sporting events.
